

PURCHASE ORDER MANAGEMENT FOR GROCERY

INCREASE ORDER ACCURACY

Leverage AI validation to eliminate errors, enforce compliance, and prevent costly rework or waste.

ACCELERATE PROCUREMENT

Automate PO creation, approvals, and collaboration across suppliers and teams to move from planning to delivery faster.

STRENGTHEN COLLABORATION

Digitize communication and scorecards to improve reliability, reduce delays, and build accountability.

PROTECT MARGINS & COMPLIANCE

Real-time visibility into landed costs, vendor performance, and USDA/FDA requirements for full control and confidence.

Grocers face a unique challenge: every purchase order must balance freshness, accuracy, and profitability across thousands of SKUs, suppliers, and stores. Built on the AI-native ONESM Platform, Digital Wave's Purchase Order Management (POM) solution unifies the full PO lifecycle, from vendor collaboration to in-store delivery, ensuring compliance, precision, and profitability at scale.

KEY FEATURES

- **Initiate POs from Planning:** Create POs directly from assortment, replenishment, or vendor negotiation workflows before SKUs are finalized.
- **Manage Fresh, Private Label, and Promotional Buys:** Support recurring, seasonal, and special orders in one dashboard.
- **Predict Delivery and Performance:** Use AI vendor scorecards to forecast delivery dates and identify risks before they impact store shelves.
- **Digitize Supplier Communication:** Replace emails and spreadsheets

with integrated confirmations, updates, and audit-ready trails.

- **Automate Compliance Validation:** Orders meet nutritional, allergen, and regulatory demands prior to submission.
- **Optimize Global and Local:** Manage landed costs, tariffs, and cross-border documentation with domestic orders.
- **Agentic AI Approval Workflows:** Enforce budgets and policy compliance, streamline routine approvals for faster execution.
- **Real-Time Financial Tracking:** Monitor committed costs, delivery status, and margin impact across every supplier and category.

DISTINCT ADVANTAGES OF DIGITAL WAVE

Digital Wave's AI-native Purchase Order Management solution delivers the speed, accuracy, and visibility modern grocers need to thrive. By connecting planning, replenishment, pricing, and vendor collaboration through the ONE Platform, it ensures every order supports profitability, compliance, and customer satisfaction.

UNIFIED DATA FOR ACCURACY

Unlike traditional PO systems that rely on disconnected spreadsheets or vendor emails, Digital Wave embeds procurement directly into the ONE Platform. Every purchase order is grounded in governed master data that connects to pricing, replenishment, and category plans ensuring consistency from strategy to store delivery.

TAILORED FOR GROCERY COMPLEXITY

Purpose-built for grocery operations, this solution handles perishables, private labels, and promotions with equal precision. It automates time-sensitive workflows like lead-time adjustments, vendor compliance validation, and delivery forecasting, helping grocers minimize spoilage and meet customer demand.

FUTURE-READY INNOVATION

AI, GenAI, and Agentic AI power every stage of the PO lifecycle, turning procurement into a growth lever. From predicting vendor performance to enforcing policy compliance, grocers gain continuous intelligence and agility to adapt to market shifts and regulatory changes with confidence.

ABOUT DIGITAL WAVE TECHNOLOGY

Digital Wave Technology's AI-native ONESM Platform is the foundation for trusted data, intelligent automation, and scalable growth. With a Master Data Management (MDM) core and powered by Native AI, Generative AI, and Agentic AI, the ONE Platform unifies enterprise data and execution to help organizations accelerate innovation and achieve measurable business impact.

Every workflow, model, and decision runs on clean, governed data. With built-in Rapid Application Development, teams can build or extend enterprise solutions in days while maintaining control and compliance. Data Science Studio allows enterprises to develop, train, and operationalize AI models directly within the platform, eliminating silos and reducing time to value.

Trusted by global enterprises, Digital Wave Technology delivers the agility, intelligence, and resilience needed to thrive in an age of constant transformation.
